

OLD KYNETON PRIMARY SCHOOL PROJECT UPDATE

Creative Victoria would like to inform you that early works are being undertaken at the Old Kyneton Primary School redevelopment site during November and December 2022.

The following Frequently Asked Questions (FAQs) outline what you can expect over this period.

We are working to minimise any impacts on the community and will continue to keep you informed as this project progresses.

If you have any questions about the project, please contact us at CVInfrastructure@creative.vic.gov.au.

FAQS

What will early works include?

Early works on the site will include various building and services investigations to develop a better understanding of the existing conditions and assist with finalising the design and preparation for construction. Temporary fencing will be erected at the site so that these works can be undertaken in a safe and secure manner.

When will early works begin, and for how long will they occur?

Commencing from mid-November 2022, early works will continue for approximately 7 weeks.

What impact will this have on the surrounding area?

The roads and footpaths around the site will not be impacted, however the fence that is established around the building will restrict some movements across the site. All works during this time will be contained within the building itself and should not impact surrounding residents or traders.

Will there be noise or traffic impacts?

Fencing trucks may impact traffic in and out of the site over approximately two days as temporary fencing is installed on site. No street carparking will be used, and there should be minimal to no noise impacts during the 7 week works period.

Will we still be able to access the playgrounds?

The playgrounds situated on site will not be accessible during this period and during major building work next year, however, the community will continue to have access to the playground out the front of the library, adjacent to the site.

What happens next?

Following these investigations and the finalisation of the design, building works will commence. Another update will be provided in the new year once the construction schedule is confirmed.
