

Old Kyneton Primary School

Project Update 4 April 2023

With works on the Old Kyneton Primary School project now underway, we would like to update you on the activities that are currently underway on site and will continue throughout April.

FAQS

What is currently happening on the site?

You may have noticed some changes to the site in recent weeks. We are currently undertaking:

- restoration works on the bluestone building in preparation to transform it into a functional gallery space.
- removal of old interiors and non-heritage walls inside the bluestone building to improve accessibility, bring the site up to the latest compliance standards and prepare for the next stage
- building enhancements to create an accessible entrance to the building.

Will there be noise or traffic impacts?

- Our machinery only works during approved site operating times (see below), with controlled noise levels.
- There are trucks moving in and out of the site each day, which can impact local traffic flows for short periods while trucks are entering and exiting site.
- Use of street parking will be kept to a minimum by workers attending the site.

What impact will this have on the surrounding area?

All current works are contained within the building site (see map below) and the roads and footpaths around the site will not be impacted.

How long will these works take?

These works are now underway and will continue throughout April.

What are the site hours?

Site hours will be in line with Macedon Ranges Shire working times;

- 7:00am to 8:00pm Monday to Friday.
- 9:00am to 8:00pm on Weekends and Public Holidays.

What do I do if there are issues or complaints about the construction?

Please contact infomcc@mccorkell.net.au.

What happens next?

The next phase of works includes repairs on the roof of the bluestone building. In the weeks ahead, perimeter scaffolding will also be erected around the bluestone building in preparation for this work.

We will issue another construction update shortly.

Who can I contact if I have further questions about the project?

You can find more information about this project at www.development.vic.gov.au. If you have any further questions, please contact Creative Victoria at: CVInfrastructure@creative.vic.gov.au
